## AQUA AIR™

### SENSATIONAL WATER SAVING

Uninspiring and expensive showers are a thing of the past with the Aqua Air™ showering products from Croydex.

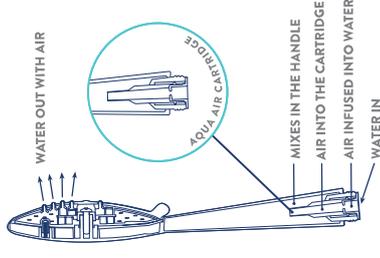

Aqua Air™ products produce a bigger and softer water droplet to enhance and improve your showering sensation and pleasure, whilst also reducing your water consumption with its unique water saving device.

How Aqua Air™ works is simple – water flowing through the shower head draws in air, which is then mixed with the water. This creates an enhanced, volumised showering sensation and lowers water consumption considerably.

In fact, Aqua Air™ shower handsets can save up to 50% water when compared to similar standard shower handsets.

SAVE WATER  
SAVE MONEY

### THE WATER LABEL

The Water Label is a voluntary scheme and is open to all companies who manufacture or sell product in the UK and Europe that meets the criteria for water efficiency products as defined by technical experts within the bathroom industry.

All Aqua Air™ shower heads are listed with the European Water Label Scheme. Your guarantee of water efficient transparency.

### EASY INSTALLATION

Unscrew your existing shower head from the shower hose and discard old washer. Clean threads on shower hose.

Fully insert the Aqua Air™ cartridge and position the washer supplied in the connector of your shower hose and attach it to the shower head. Do not over-tighten.

To retain the best quality finish, clean product regularly with a soft damp cloth. Do not use abrasive or chemical cleaners, as these may damage the product.
