FLEXI FOOT

The Flexi Foot with Strut comes in four sizes - 250mm, 400mm, 600mm and 1000mm - is also available as a low profile option. They are manufactured from heavy-duty recycled rubber, and are supplied with an integral 41 x 21 mm galvanised steel strut adhered to the rubber with industrial strength adhesive. The dense nature of these products make them suitable for various building services supports.

Typical installation

Part code: FF-250-S

Part code: FF-400-S

Part code: FF-600-S

APPLICATION

- Suitable for supporting everyday installation of small F&R pipework, lightweight cable basket, and cable tray at low level.

Alternatively the installer can build up additional struts for elevated services subject to stability considerations. Flexi Foot with Strut are also suitable to support lighter AC split condensers, and air source heat pumps in wind protected environments.

WHAT OUR SERVICE OFFERS YOU

- Quotations on request
- Full Auto-CAD drawing support
- Site support and site surveys
- Load management calculations
- Over 25 years experience in flat roof design, and providing support systems to building services
- Fast delivery
- Experienced in-house technical staff

MATERIAL SPECIFICATION

- Foot - SBR recycled rubber BS 7188:1989+ A2:2009 and BS EN 1176-7:2008 UV stabilised
- Strut - 41 x 21 x 1.6mm steel strut galvanised steelwork. BS EN 1021 1:2006
- Finish - Galvanising: BS EN ISO 1461 :2009
- Robust high quality materials used
- Channel is compatible with industry standard fixings and fixtures
- Suitable for internal / external environments in temperatures between -40° to +80°C BS EN IEC 60068-2-52:2018
