A wide product lineup to meet a variety of needs

We can flexibly meet customer needs through a variety of offerings including wired and wireless individual remote controllers, central remote controllers that simultaneously control multiple indoor units, and a variety of converters that link with other systems.

CONTROL SYSTEM

INDIVIDUAL CONTROL

- C-010 Wired remote controller (Design type)
- C-012 Wired remote controller (with touch panel)
- C-014 Wired remote controller / Compact wired remote controller
- C-015 Wired remote controller
- C-016 Simple remote controller
- C-017 Wireless remote controller
- C-019 IR receiver unit

CONVERTERS/ADAPTERS

- C-022 WLAN adapter
- C-025 Multiple protocol WLAN adapter

CENTRALIZED CONTROL

- C-026 Home central remote controller
- C-028 Central remote controller
- C-030 Touch panel controller
- C-034 System controller Software / System controller lite Software

CONVERTERS/ADAPTERS

- C-038 MODBUS® converter for indoor unit
- C-039 MODBUS® interface
- C-040 MODBUS® converter for VRF
- C-041 BACnet® interface
- C-042 BACnet® gateway Software
- C-043 BACnet® gateway Hardware
- C-044 BACnet®/MODBUS® router
- C-045 BACnet®/MODBUS® cloud device
- C-046 KNX® converter for indoor unit / KNX® converter for VRF
- C-047 KNX® interface
- C-048 Network converter for single-split type
- C-049 Network converter for LONWORKS™
- C-050 External switch controller / Signal amplifier

Optional parts

- C-070 Silver ion filter
- C-071 Auto louver grille kit
- C-072 Pressure sensor kit
- C-073 External power supply unit
AIR BEAM radiation air outlet unit
- C-074 Gas sensor kit
- C-092 Separation tube and other piping products

SPLIT

MULTI-SPLIT

VRF J series

VRF V series

Control System Overview

for Split & Multi-split

All indoor units* are equipped with a wireless or wired remote controller as standard. Additional options are available, such as individual remote controllers and central remote controllers. The easy-to-operate central remote controller makes it simple to control the operation mode, temperature, airflow volume, timer, and other functions of each indoor unit from a single location.

* Except for some products

Air Conditioning Individual control

Wired remote controller
A built-in thermo sensor monitors and controls room temperature accurately.

Wireless remote controller
Simple and versatile operations with a choice of 4 different types of timers

Simple remote controller
Compact remote controller with basic functionality

For Ceiling type

For Duct type

For Cassette type

IR receiver unit
This IR receiver unit enables a wireless remote controller to control a duct-type indoor unit.

Air Conditioning Centralized control

Home central remote controller for 5 & 6-unit Multi-split type
Enables individual and central control.

Converters / Adapters
For external control via BMS/Home Automation Systems

- MODBUS® converter** for indoor units UTY-VMSX
- MODBUS® interface** for indoor units Intesis
- KNX® converter** for indoor units UTY-VKSX
- KNX® interface** for indoor units Intesis
- WLAN adapter**
- Network converter**
 - DC power supply type UTY-VTGX
 - AC power supply type UTY-VTGXV

Online Control (Wireless Control via Smartphone/Tablet)

With the WLAN adapter and the AIRSTAGE Mobile app, you can control the heating and cooling of your home anytime, anywhere.

WLAN adapter
The dedicated WLAN adapter enables the air conditioner to be operated by smartphone or tablet computer.

AIRSTAGE Mobile

GOOD DESIGN AWARD 2022

Simple and stylish design that harmonizes with the space

- The new stylish design controller, UTY-RVRC, enables intuitive operation with touch screen. It is compatible with many 2-wired indoor units.

Harmonizes with the Installation Space

When not in use, the controller is a part of the interior décor. This is achieved by using mirrors, glass, and clear panels, and it appears to be one with the wall. The sleek and stylish design won the 2022 Good Design Award and was selected as a finalist for the 2023 IDEA award.

Intuitive operation

The touch screen is easily operated by swiping vertically and horizontally, and users can operate the controller without using manuals.

Status LED Colors

When not in use, the operation mode is indicated through LED lamp colors shown under the controller. The LED lamp can be switched ON and OFF to avoid glare at night.

Features: Wired Remote Controller (Design type)

Refrigerant cycle monitor

The controller will display specific sensor values of outdoor and indoor units for maintenance and service support.

- * Display screen example
- * This function is only supported by split units, using the H-Serial communication protocol! Example: ASYH30KMTB

Logo Display

The controller can display hotel logos when not in use. Images are sent via Bluetooth® connection where data is saved in the flash memory built into each controller.

- * Color display available

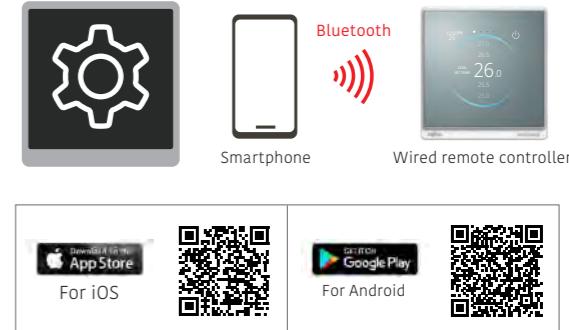

AIRSTAGE Remo Set application (free download)

Set up your new Wired Remote Controller via Bluetooth from your smartphone (or directly at the controller).

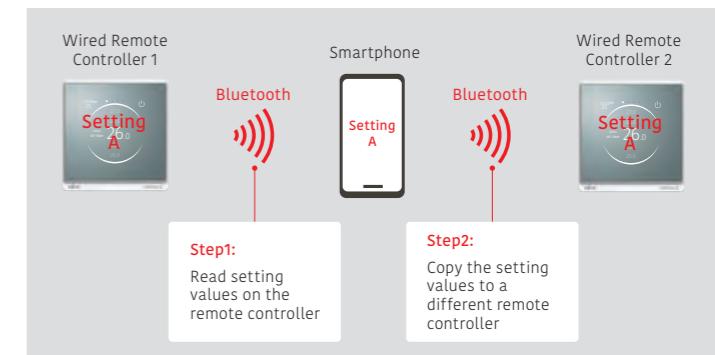

Features:

- Initial configuration
- Function setting
- Custom logo import
- Copy settings between controllers

Initial Settings / Indoor Unit Function

The initial controller settings and indoor unit function settings can be sent from a smartphone by pairing with the controller via Bluetooth. It also can read the setting values of a paired controller, and send a copy of them to one or more additional controllers, significantly reducing installation time.

*Smartphone : Wired Remote Controller = 1:1

Specifications

Model name	UTY-RVRY
Power Source	DC12V
Dimensions (H × W × D) (mm)	121.5 × 116 × 26
Weight (g)	225

Wired remote controller (with touch panel)

UTY-RNRYZ5

Up to
16 indoor units
Up to
1 group

Easy operation due to large high-resolution STN-LCD touch panel screen

- Touch screen LCD
- Built-in daily/weekly timer (ON/OFF, temperature, modes)
- Backlit screen for easy operation in the dark.
- Room temperature display
- Controls up to 16 indoor units
- Supports 12 languages: Chinese, Dutch, English, French, German, Greek, Italian, Polish, Portuguese, Russian, Spanish, and Turkish
- Nonpolar 2-core type

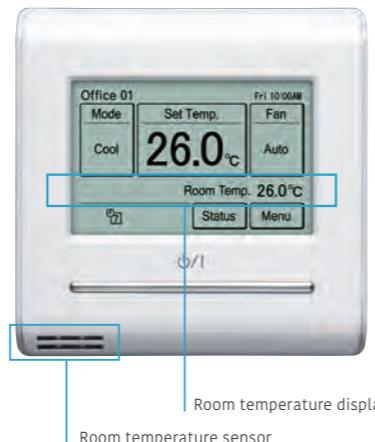

High performance and compact size

A single remote controller controls each connected indoor unit and provides a weekly timer function and a variety of energy-saving options.

Accurate control for comfort

A thermo sensor built into the remote controller monitors room temperature accurately.

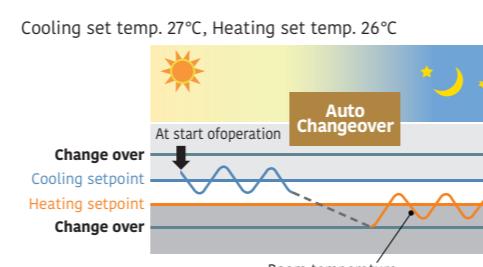

Energy saving controls

Custom Auto

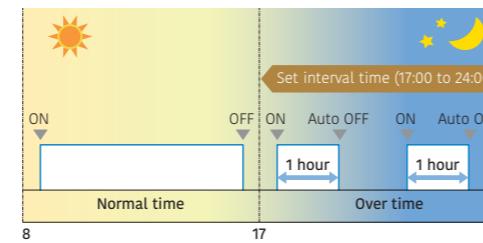

- Maintains 2 separate setpoints for heating and cooling operations.
- Automatically switches between heating and cooling modes.

* Not available for some models

Auto-off timer

- While the Auto-off timer is activated, if the set off time is specified as, for example, one hour, the power will automatically turn off one hour after the start of operation.
- A desired time frame can be specified for the Auto-off timer.
- The off-time can be set from 30 to 240 minutes.

2-setting weekly timer

Set temperature auto return

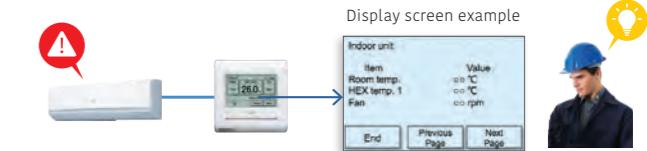

Setting temperature range limitation

Features: Wired Remote Controller (Touch Panel)

Refrigerant cycle monitor (option)

Wired Remote Controller (Touch Panel) will support to display some sensor values for maintenance and service support.

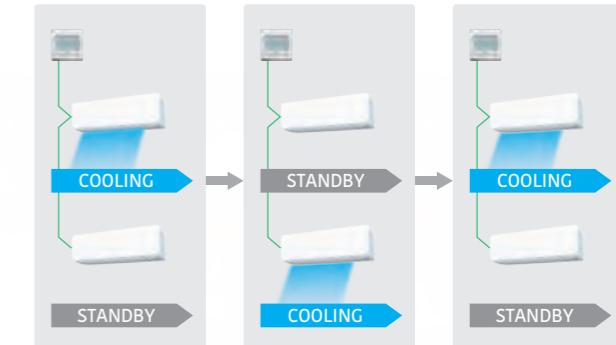

* This function is only supported by split units, using the H-Serial communication protocol! Example: ASYH30KMTB

Multi System Control^{*1}

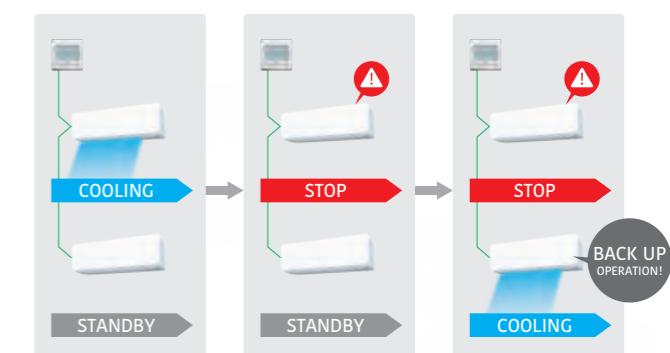

1) Lead Lag Operation

Standby Indoor Unit can be selected in lead lag operation. By this, the Indoor units will last longer than operating by nonstop.

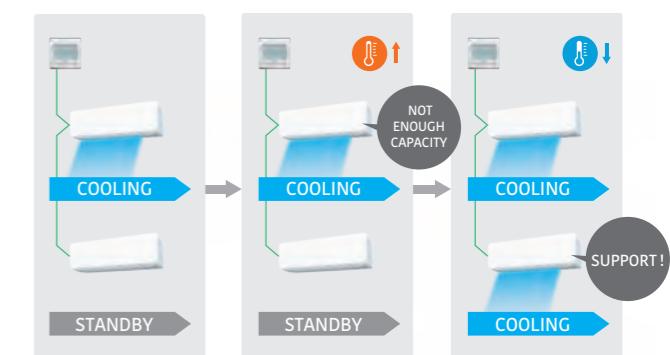

2) Back up operation

In case of unexpected Indoor unit error, other Indoor units will start providing back up operation.

3) Lag Operation

In case of unexpected room temperature rise, other Indoor Units will start providing lag operation.

*1: "Lead Lag Setting" is an easy-to-use function for room temperature control when using multiple indoor units, while reducing the burden placed on each indoor unit. If you wish to make use of this function, ensure you use indoor units equipped with a "Special Cooling" function. For Split products with "Special Cooling" function, refer to S-068 to S-071. If you use indoor units that do not have a "Special Cooling" function, under certain conditions, there is a chance that "Backup operation" may not operate correctly, and the "Lead Lag Setting" function will not give the expected results. Additionally, for rooms that require strict conditions, such as server rooms, please consider other appropriate measures. Please note that we will not provide compensation for any damages suffered to your appliances or data as a result of using this function. For more details, please confirm with your nearest retail store.

Specifications

Model name	UTY-RNRYZ5
Power Source	DC 12 V
Dimensions (H x W x D) (mm)	120 x 120 x 20.4
Weight (g)	220

DC 12 V is supplied by the indoor unit.

CONTROL SYSTEM

- INDIVIDUAL CONTROL

Wired remote controller

UTY-RRLRY

Up to
16 indoor units
Up to

12 V DC supplied by an indoor unit

Wired remote controller

UTY-RVNYM

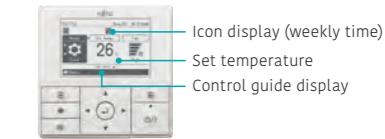

Hi-grade individual control with a wide range of functions.

- 3.7-inch backlit LCD screen.
- Supports energy-saving functions with simple operation.
- Supports 9 languages:
English, French, German, Greek, Italian, Portuguese, Russian, Spanish, and Turkish

Visually intuitive operation

- Each function is displayed as an icon.
- Main functions are indicated by large icons: "Mode," "Set Temp," and "Fan"
- Easy operation with control guide display
- Simple operation with easy 4-way navigation pad

High performance and compact size

- A single remote controller controls each connected indoor unit and provides a variety of energy-saving options.

Wired remote controller

UTY-RNNYM

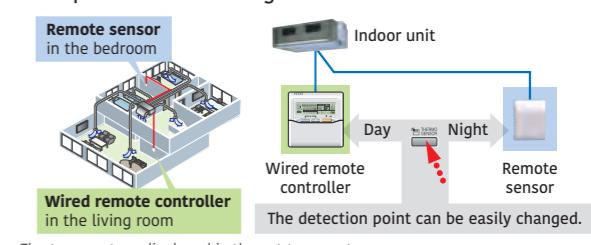

- Simple operation with Built-in Weekly/Daily Timer.
- Control up to 16 indoor units.
- Up to 2 Wired remote controllers can be connected to a single indoor unit.

Accurate control for comfort

A thermo sensor built into the remote controller monitors room temperature accurately. The wired remote controller and an optional Remote sensor can be installed in any location to meet any requirement.

Examples of sensor changes

The temperature displayed is the set temperature.

Built-in timer

Weekly timer: ON/OFF time can be set to operate twice for each day of the week.
Temperature setback timer: Sets the time to change the temperature setting and the time to hold the setting for each day of the week.
At "Weekly timer" + "Temperature setback timer" setup

CONTROL SYSTEM

- INDIVIDUAL CONTROL

Simple remote controller

UTY-RSRY / UTY-RHRY (without operation mode)

Up to
16 indoor units
Up to
1 group

Compact remote controller with basic functionality

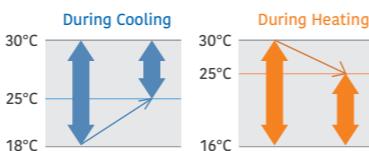

- Up to 16 indoor units can be controlled with one remote controller.
- Suitable for hotels or offices as it is easily operated with no complex functions.
- Simple design that matches stylish interiors
- Large LCD screen and easy-to-use control buttons
- Backlight: White backlight makes it easy to operate in the dark.
- Nonpolar 2-core type

Supports a variety of applications

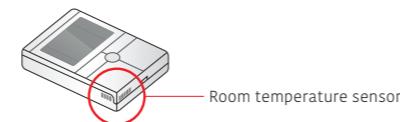

- Vertical louver control:** Adjusts the vertical airflow direction of a duct-type indoor unit with an auto louver or a cassette type installed in a hotel room or a conference room.

- Setting temperature range limitation:** Enables an indoor unit to operate in an energy-saving manner in a small building not equipped with a central remote controller.

- Built-in room temperature sensor:** Monitors and controls room temperature accuracy.

Wireless remote controller

UTY-LNTY

Simple and versatile operations with a choice of 4 different types of timers

Built-in timer

4 timer programs: ON/OFF/Program/Sleep
Program timer: Sets ON/OFF time once for every 24 hours.
Sleep timer: Adjusts the set temperature automatically while the sleep timer is on.

Easy installation and operation

Different codes can be assigned to up to 4 indoor units to prevent a mix-up.
Wide and precise transmitting range

Wireless remote controller

12 V DC supplied by an indoor unit

IR receiver unit for duct type

UTY-LRHYM / UTY-LBTYM

The wireless remote controller controls duct type indoor units.

IR receiver unit for Cassette

UTY-LBTYC

Cassette type indoor unit can be controlled with a Wireless remote controller.

IR receiver unit for ceiling type

UTY-LBTYH

The wireless remote controller controls ceiling type indoor units.

Specifications

< Wireless Remote Controller >

Model name	UTY-LRHYM	UTY-LBTYM	UTY-LBTYC	UTY-LBTYH
Battery	1.5 V (R03/LR03 AAA)			
Dimensions (H x W x D) (mm)	170 x 56 x 19	205 x 61 x 17	205 x 61 x 17	205 x 61 x 17

Dimensions (H x W x D) (mm)	145 x 90 x 30	145 x 90 x 30	—*	—*
Weight (g)	150	150	140	100

DC 5V is supplied the indoor unit.

*It will replace the parts of the indoor unit to be connected.

CONTROL SYSTEM

- INDIVIDUAL CONTROL

IR receiver unit for duct type

UTB-YWC / UTY-TRHX

The wireless remote controller controls duct type* indoor units.

*Large airflow duct types do not work with this IR receiver unit.

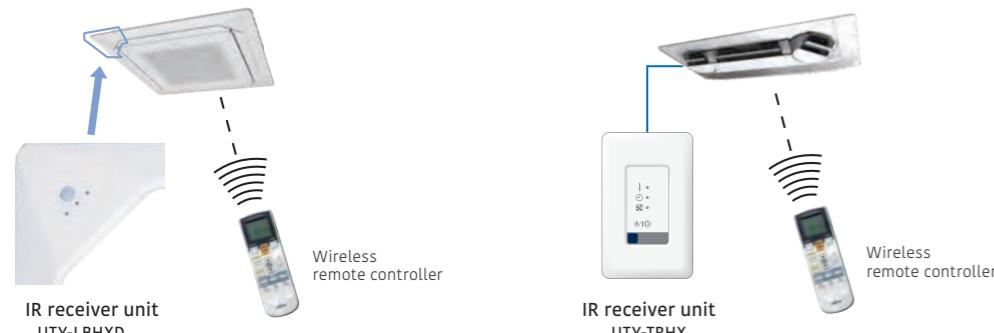

*A separate wireless remote control (model: UTY-LNHY) is required.

IR receiver unit for Cassette

UTY-LBHxD / UTY-TRHX

Cassette type indoor unit can be controlled with a Wireless remote controller.

*A separate wireless remote control (model: UTY-LNHY or UTY-LNVY) is required.

Specifications

< Wireless Remote Controller >

New Design!

Ease of use is pursued to achieve a stylish design.

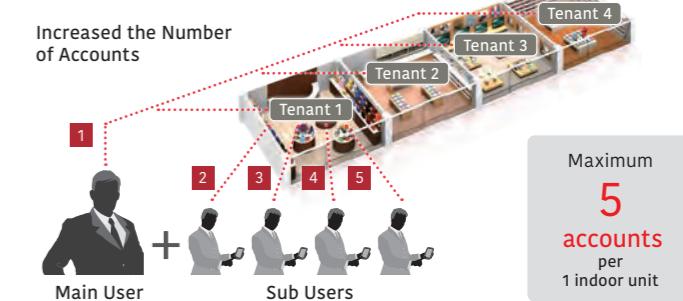

The more legible and accessible timer UI enables effortless schedule management.

Features: AIRSTAGE Mobile

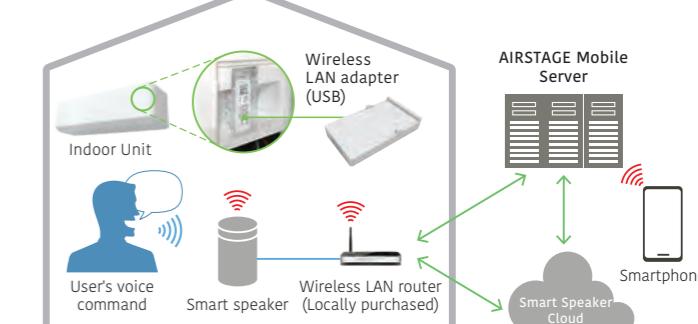

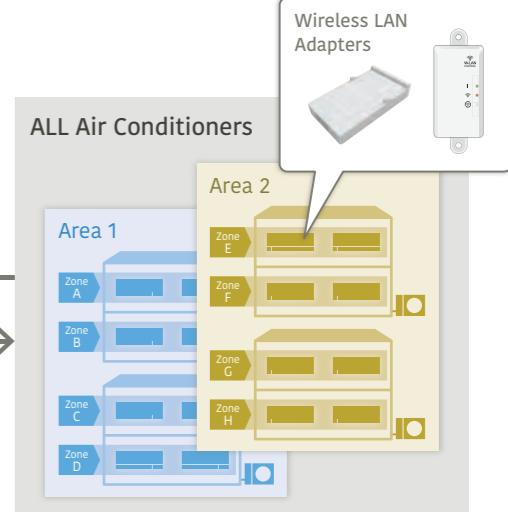

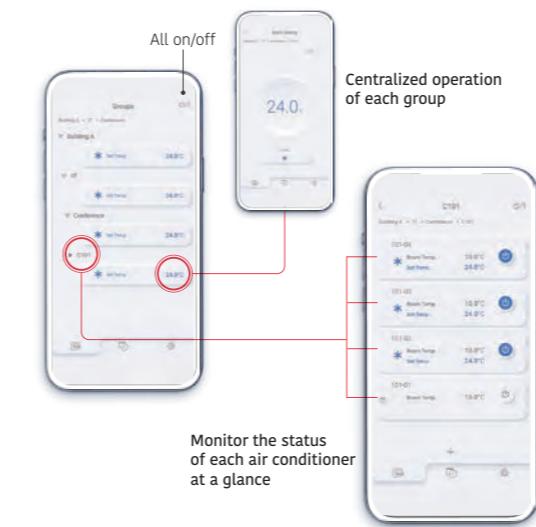

Centralized operation for flexible remote management of all air conditioners

AIRSTAGE Mobile is ideal for a wide range of applications, from large residential buildings to smaller commercial spaces such as offices and stores. Anyone who has a smartphone and an adapter can access to manage the system at a low cost.

Hierarchical group management

Multiple air conditioners can be combined into a single group for centralized operation. Several groups can also be organized at once. Grouping the air conditioners by building, floor, or room makes it easy for users to monitor their operation status and operate them quickly.

Operate air conditioner and check its operation status just by talking to it

Connecting with a smart speaker allows the user to operate the air conditioner and check its operation status just by talking to it.

Home central remote controller

UTY-DMMYM / UTY-DMMYM1

Up to
1 multi-split system
Up to
6 indoor units

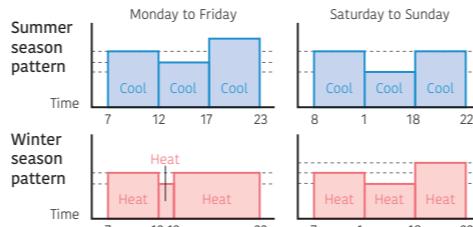

Example of system configuration

Home central remote controller

Weekly timer

Up to 4 ON/OFF settings can be programmed per day. Two weekly patterns can be set, one for the cooling season and the other for the heating season.

Low noise operation

You can choose from 4 low noise levels depending on the installation environment. ON/OFF timing of low noise mode can be set with the timer.

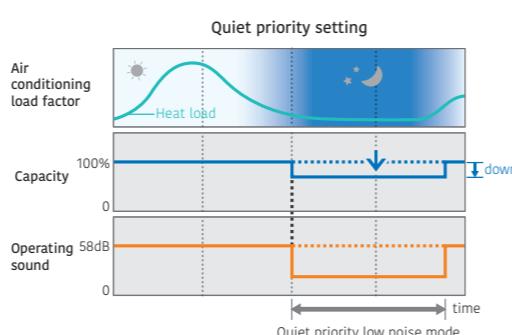

10 °C heat operation

When you leave the house, the air conditioner runs a minimum heating operation to maintain the room temperature at 10°C.

*Consult your dealer for conditions of use.

Economy operation

When you select energy-saving economy mode, the temperature setting for the indoor unit increases (during cooling operation) or decreases (during heating operation) by 1°C and the maximum electric value of the outdoor unit is suppressed.

Prohibiting local control, including settings such as child lock

The Home central remote controller is equipped with a lock function to prevent unauthorized operation from the remote controllers of the indoor unit in each room. The Home central remote controller is equipped with a child lock to prevent children from accidentally turning the air conditioner on or off or changing its settings.

Specifications

Model name	UTY-DMMYM/UTY-DMMYM1
Power source	12 V DC
Dimensions (H × W × D) (mm)	120 × 120 × 21.3
Weight (g)	220

12 V DC supplied by an indoor unit

CONTROL SYSTEM

- CENTRALIZED CONTROL

Central remote controller

UTY-DCGYZ3

Up to
100 indoor units
Up to
50 groups

For tenants in small to midsize commercial premises

- Individual control and monitoring of up to 100 indoor units
- 7.0inch TFT color screen
- Visually intuitive operation
- Room temperature display by indoor unit sensor & remote controller sensor
- 50 Remote Controller Groups Display & remote controller group rename
- Supports 14 languages: Chinese (Simplified/Traditional), Dutch, English, French, German, Greek, Italian, Polish, Portuguese, Russian, Spanish, Turkish, and Thai (Remote Management only)

Easy operation

Air conditioning management by detecting room temperatures of each room

The room temperature detected with indoor unit sensor or remote controller sensor can be displayed. New model can detect the room temperature by indoor units sensors even if wired remote controllers are not connected to the indoor units.

Not connected wired remote controller

*Room temperature is displayed only when indoor unit operates.

Connected wired remote controller

50 Remote Controller Groups Display

The group display and the 50 remote controller groups display can be switched easily. Users can choose which display is better, depending on the situation.

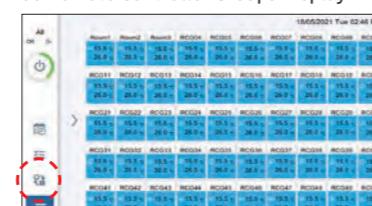

Group Display

Manage & Monitor
by each Groups

50 Remote Controller Groups Display

Manage & Monitor
by 50 Remote Controller Groups

Remote Controller Groups Rename

The remote controller group names can be changed. Users can know easily where the air conditioning is located by changing the remote controller group names.

The remote controller group name can be changed.

Features: Central Remote Controller

- Easy intuitive operation from the touch panel display.
- All functions can be accessed through the monitoring screen showing a pop-up window for detailed operation.

Monitoring screen
Individual setting

Added individual wind direction control
Individual wind direction control has been added.
Circular Flow cassette / 3D Flow cassette

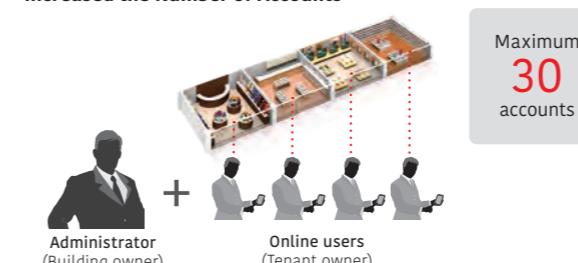

Human sensor Compatible
Human sensor setting
• Auto save
• Auto on / off
• Auto off detection time
• Enable and disable

Remote Management

Remote monitoring / Remote operation

New central remote controller can control your tenant's air conditioner anytime and anywhere. When the central remote controller manages the indoor units of some tenants, air conditioning of each tenant can be managed separately online.

Increased the Number of Accounts

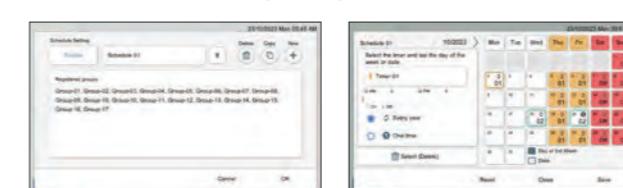

Maximum
30 accounts

Schedule management

Annual schedule

- An annual schedule can be arranged for each remote controller group or user-defined group.
- Allows for the programming of special settings for weekends, holidays, and store closings throughout the year.

Specifications

Model name	UTY-DCGYZ3
Power Supply	100-240 V 50/60 Hz
Dimensions (H x W x D) (mm)	134.6 x 216.2 x 37.9
Weight (g)	800

Trouble support function

Display error details

Display descriptive explanation when an error occurs

All indoor unit groups display
Display error details
- Indoor unit error
- Outdoor unit error
- Central remote controller error

Sensor value monitoring function

Monitor sensor data of indoor unit / outdoor unit, send mail

Notify room temperature by email*

Notify by e-mail when the temperature around the air conditioner is too high or too low

*This function is available only when using wired remote controller.

Low noise schedule

Low noise operation of outdoor units can be scheduled.

Automatic return to set temperature

A function that automatically returns the changed temperature to its original value over time.

Touch panel controller

UTY-DTGYZ1

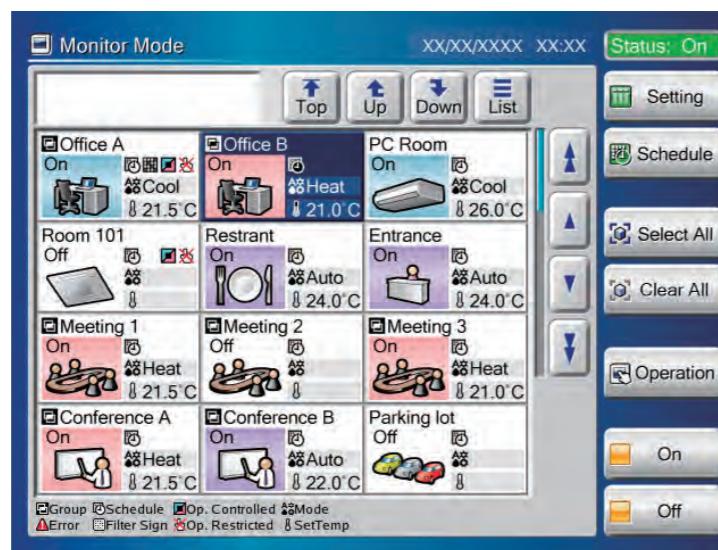

Up to
400 indoor units
Up to
100 outdoor units
Up to
400 groups

- Large 7.5-inch TFT color LCD screen
- Touch screen operation
- Stylish design to fit nicely into any room environment
- Controls up to 400 indoor units.
- Icon or list view can be selected in monitoring mode.
- Supports 7 languages: Chinese, English, French, German, Polish, Russian, and Spanish.
- Mounted with LAN adapter for remote control & operation, external input/output with emergency stop and batch ON/OFF

Easy operation

- Wide range of simple-to-understand icons
- Operate by pressing the icons on the screen with your finger or a stylus.
- The color on the back identifies the current control operation; blue is for monitoring and green is for operational control.

Easy maintenance

- The flat touch panel can be easily cleaned.
- Touch panel controller with non-glare coating to prevent finger marks
- Front cover for easy removal.

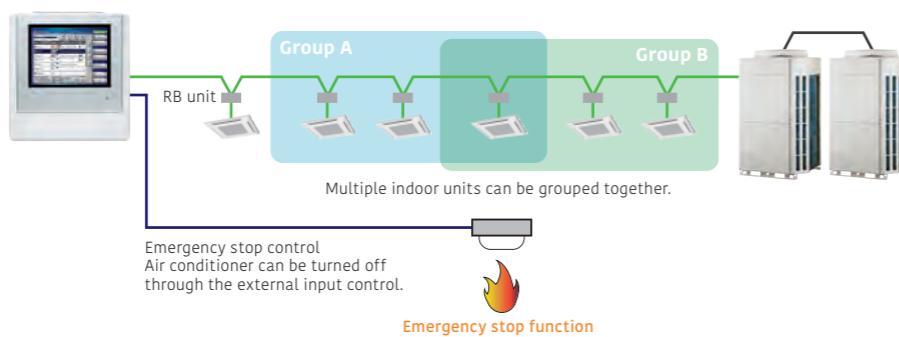

Easy installation

- The touch panel controller can be mounted on a wall.
- Flat back surface enables easy installation anywhere on a wall.
- No additional parts or components required for installation

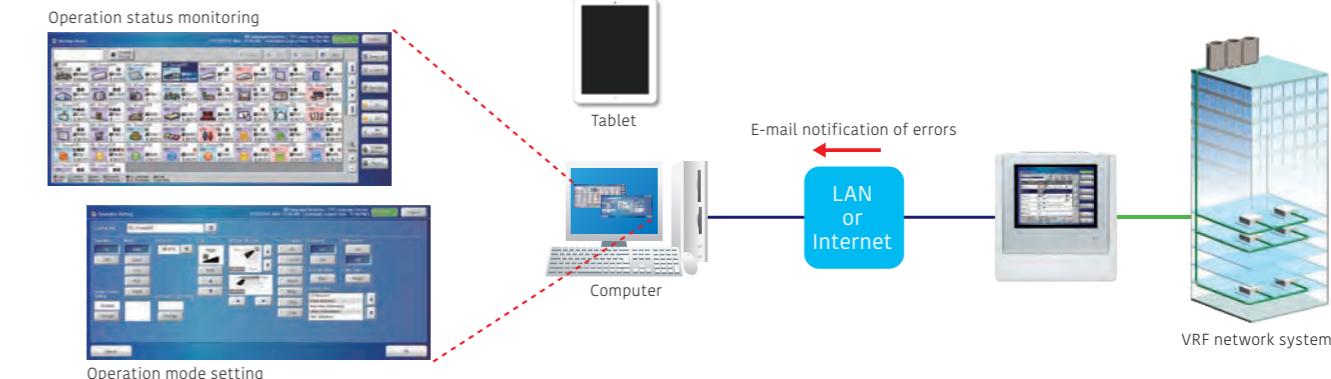

Controls up to 400 indoor units.

Features:

Control & monitoring

- Control and monitor Fujitsu General air conditioners via LAN or internet.
- Users and tenants can manage their assigned equipment from anywhere by computer or tablet.
- When something goes wrong, an error notice is sent by e-mail for prompt troubleshooting.

Smartphone

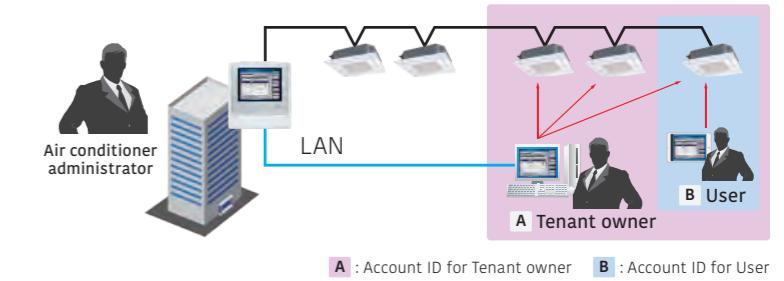

Model name	Browser
Nexus 6P (Android 7.1.1)	Google Chrome 5.5
iPhone 7 (iOS 10.1)	Safari 10

Tablet

Model name	Browser
iPad Pro 9.7 inch (iOS 10.2.1)	Safari 10

Flexible access permissions can be granted to users at each point level.

The administrator can register multiple users and permit them to access any indoor unit and any functions.

Additional languages

Supports 7 languages as standard: Chinese, English, French, German, Polish, Russian, and Spanish.

Create a language database to integrate additional languages into the remote device.

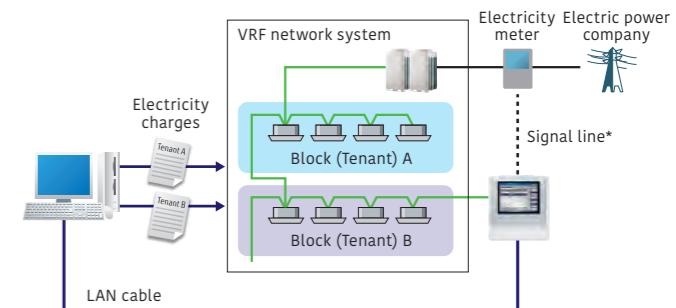

The added languages will only be displayed on the remote device and cannot be added to the Touch panel controller.

Electricity charge apportionment (Option: UTY-PTGXA)

- Energy cost can be calculated and allocated to each billing user in proportion to the amount of energy used for air conditioning.

- Apportionment charge/bill calculation
- Tenant (block) setting
- Common facilities apportionment setting
- Rated power consumption allotment
- Individual calculations for cooling and heating
- Electricity meter supported

* An electricity usage meter can be connected to an external input connector of the Touch panel controller. In that case, the meter cannot be connected to an outdoor unit at the same time.

Features:

Automatic setting for daylight saving time

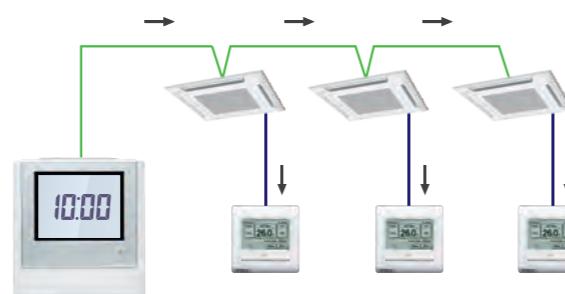

Functions provided

1) Schedule setting for daylight saving time

- It prevents the user from forgetting to set daylight saving time. In addition, it saves time and effort for the user.

Automatic clock adjustment

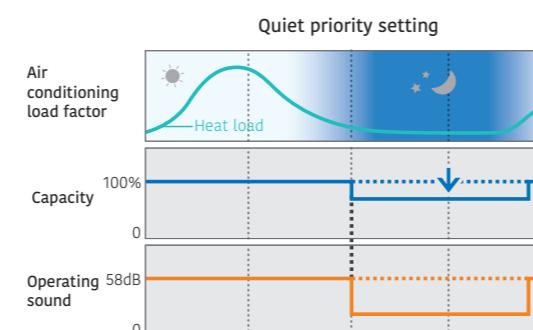

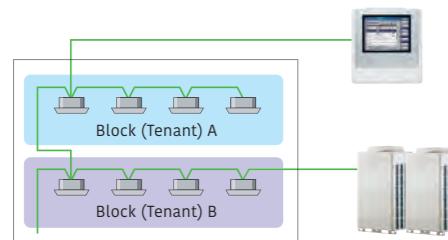

2) Time can be set for all controllers in a batch automatically.

Outdoor unit low noise operation

You can choose from 4 low noise levels depending on the installation environment.

ON/OFF timing of low noise mode can be set with the timer.

Energy-saving controls

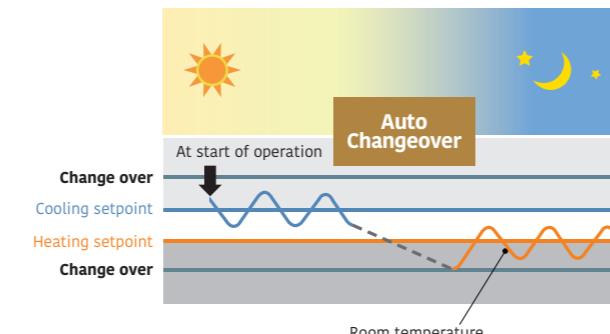

Custom Auto

- Maintains 2 separate setpoints for heating and cooling operations.
- Automatically switches between heating and cooling modes.

* Not available for some models

Cooling set temp. 28°C, Heating set temp. 18°C

Refrigerant leak detector

Refrigerant leakage status is indicated by the management equipment. A pop-up message is displayed to notify the user, and the refrigerant is shut off.

CONTROL SYSTEM

- CENTRALIZED CONTROL

System controller

UTY-APGXZ1 Software

Up to
4 VRF network systems
Up to
400 outdoor units
Up to
1,600 indoor units

System controller enables advanced integrated monitoring and control of VRF network systems operating in small to large buildings.

- Up to 1,600 indoor units and 400 outdoor units on up to 4 VRF network systems can be controlled.
- To accommodate facility management needs, the system controller offers—in addition to precise air conditioning control—remote central control, electricity charge apportionment, schedule management, and energy-saving options for VRF network systems.
- Supports 7 languages: Chinese, English, French, German, Polish, Russian, and Spanish.

System controller lite

UTY-ALGXZ1 Software

Up to
1 VRF network system
Up to
100 outdoor units
Up to
400 indoor units

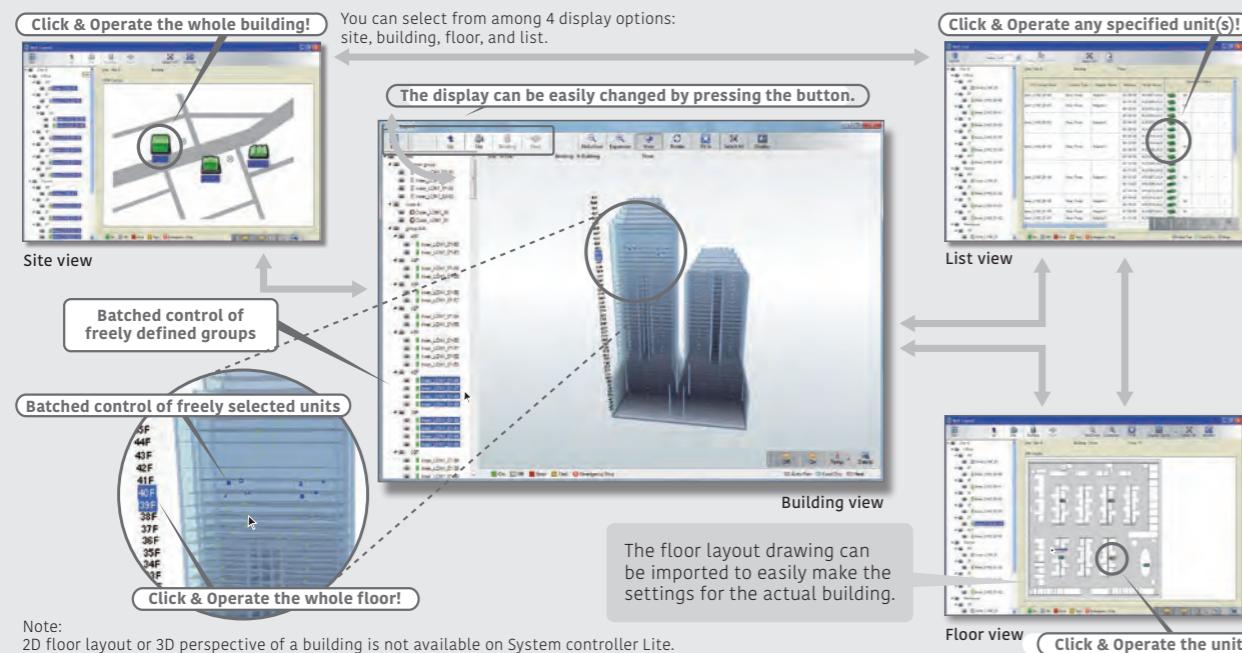

System controller Lite offers a set of standard functions to manage air conditioners operating in a small or midsize building.

- Up to 400 indoor units and 100 outdoor units on a VRF network system can be controlled.
- In addition to precise air conditioning control, a variety of applications are available as options to offer a wider range of control.
- Supports 7 languages: Chinese, English, French, German, Polish, Russian, and Spanish.

Visually intuitive operation

Click & Operate: The visual representation of the property is shown on the screen from the perspective most suitable for operation (Click & Operate) You can select from among 4 display options: site, building, floor, and list.

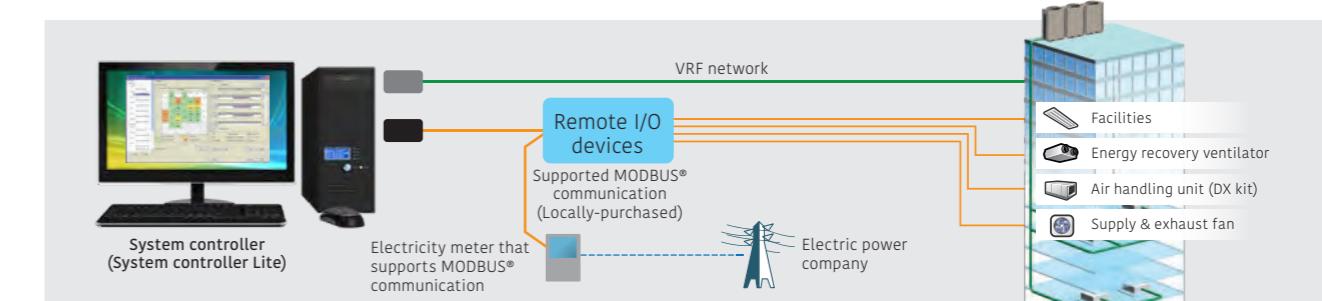

Note:
2D floor layout or 3D perspective of a building is not available on System controller Lite.

Features:

Third-party devices connected via MODBUS® can be controlled.

Standard for System Controller **Option** for System controller Lite UTY-PLGXX2

When a MODBUS® adapter (locally available) is connected to a computer, electrical equipment and devices supported by MODBUS® can be monitored and controlled centrally from the computer. The central control can reduce wasted energy throughout an entire building resulting from a failure to turn equipment off during or after work, as well as reduce the need for on-site patrols.

Wide-ranging operation and data management

Standard System controller and System controller Lite

Schedule management

- An annual schedule can be arranged for each remote controller group or user-defined group.
- ON/OFF, operation mode, remote controller prohibition, and temperature settings can be programmed for up to 143 times per day at 10-minute intervals and for up to 101 configurations for each remote controller group.
- Settings can be programmed for a period that spans midnight.
- Allows for the programming of special settings for weekends, holidays, and store closings throughout the year.
- Low noise operation of outdoor units can be scheduled.

Wide-ranging control of indoor and outdoor units

- The operation status and mode of each indoor unit are displayed.
- Turn on and off each indoor unit and switch its operation mode.
- Setting temperature range limitation
- Low noise setting of outdoor units

Remote controller prohibition

Prohibits the operation mode, temperature setting, or ON/OFF of an indoor unit.

Error alert and e-mail notice

When something goes wrong, an error message is shown in a popup on a computer display with a chime, and an e-mail notice is sent. Errors of the past one year are logged and can be reviewed.

Operation and control history

A history of operation status and control can be maintained and retrieved.

Importing and exporting databases

Only an administrator is authorized to import and export registration, layout, and image data.

Automatic clock adjustment

Time can be set for all controllers in batch automatically.

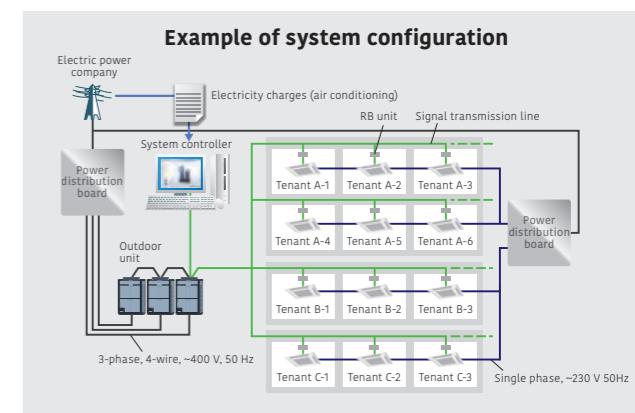

Electricity charge apportionment

Standard on System controller

Option System controller Lite UTY-PLGXA2

Electricity charge apportionment method

This is a method to calculate monthly energy costs to be allocated to each tenant based on the amount of energy used by their air conditioners. The first step is to determine exactly how much energy is consumed by air conditioners in each tenant space. The second step is to divide the total energy charge billed by an electric power company based on the amount of energy used by each tenant to determine the energy cost to be allocated to each of them. (See figure on right) The calculation takes into consideration such factors as the number of unused rooms and nighttime electricity rate, which are shown in detail on an energy cost allocation schedule.

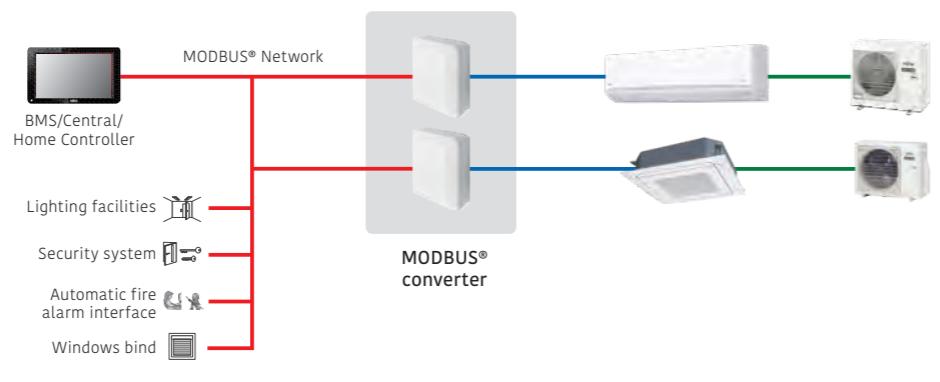

- Converters/Adapters

MODBUS® converter for indoor unit UTY-VMSX

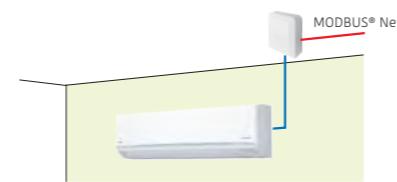

Up to
1 indoor unit

Easy Installation

Easy to install with minimal wiring and without the need for a power supply cable to the converter

Basic control

- Turning the units on and off
- Mode control (Heat, Cool, Dry, Auto, Fan)
- Fan speed control
- Louver position (airflow direction setting)
- Room temperature setting and display
- Economy mode setting
- Error status

Specifications

Model name	UTY-VMSX
Power supply	12 V DC
Input power (W)	Max. 1.2 W
Dimensions (H × W × D) (mm)	140 × 117 × 43
Weight (g)	200
Maximum number of connectable indoor units per MODBUS® converter	1

Modbus communication specifications

Transfer mode	RTU mode
Communication speed	9600/19200 bps
Data bit	8
Parity	even/odd/none
Stop bit	1/2 (no parity)
Network	RS485
Maximum cable length	1000 m (3280 ft)

[BaCnet® type]

[MODBUS® type]

BACnet®/MODBUS® cloud device

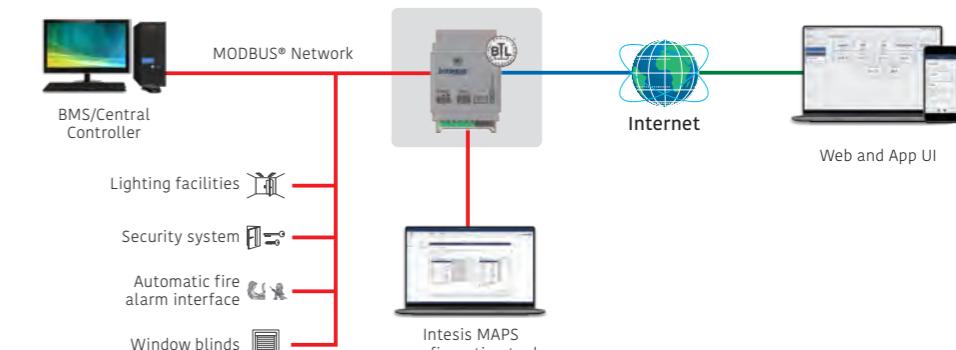

FG-CLD-BMG4Z1 / FG-CLD-BMG8Z1 / FG-CLD-BMG16Z1 / FG-CLD-BMG32Z1

Intesis®
BY HMS NETWORKS

FG-CLD-BMG4/8/16/32Z1

- The most powerful configuration tool common to all BACnet® gateways provides the system integrators with the power to configure and monitor their systems in an easy and reliable manner.
- A simple, easy-to-use description for the ST Cloud Web and App User Interface, with all widgets customizable to the user's needs, enabling system integrators to easily offer the best user experience to customers who are in control of their BaCnet® or MODBUS® devices.

Installation example

*BMS: Building Management System

Gateway features

- BaCnet® IP/MSTP or MODBUS® TCP/RTU connectivity
- Up to 32 devices can be connected to each gateway.
- Up to 12 widgets per device
- Easy device configuration with Intesis MAPS

Next-generation services

- Industrial-grade connectivity now for building automation
- Fast and scalable real-time edge connectivity over HMS HubTM
- Full data control and protection
- Secure and remote updates during the application lifetime

System Features

- Monitor and control all devices in an intuitive way
- Comes with a native iOS and Android app and a web interface
- Create scenes and interact with multiple concurrent devices
- Calendar that shows the daily planned installation commands
- Notifications keep you updated about system status
- Device sharing and usage permissions management
- Multiple site management from a common dashboard

Specifications

Model name	FG-RTR-BAC32Z1 (MS/TP to IP)	FG-RTR-MBS32Z1 (RTU to TCP)
Number of routable devices (max.)	32	32
Power supply	9 to 36 V DC, Max.: 140 mA or 24 V AC 50/60 Hz, Max.: 127 mA	9 to 36 V DC, Max.: 140 mA or 24 V AC 50/60 Hz, Max.: 127 mA
Power consumption (W)	1.7	1.7
Dimensions (H x W x D) (mm)	93 x 53 x 58	93 x 53 x 58
Weight (g)	150	150

Specifications

Model name	FG-CLD-BMG4Z1	FG-CLD-BMG8Z1	FG-CLD-BMG16Z1	FG-CLD-BMG32Z1
Number of connectable BaCnet® (IP/MSTP) or MODBUS® (TCP/RTU) devices	4	8	16	32
Power supply	9 to 24 V DC, 50/60Hz			
Power consumption (W)	1.7	1.7	1.7	1.7

CONTROL SYSTEM

- Converters/Adapters

KNX® converter for indoor unit

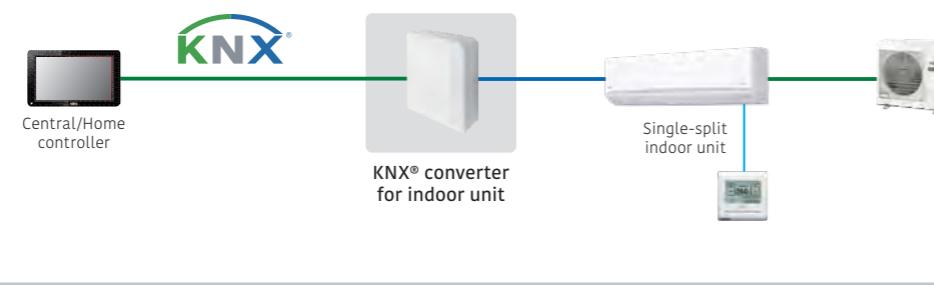

UTY-VKSX

Up to
1 indoor unit

KNX® Converter enables individual control of an indoor unit.

- The new KNX® converter connects a central or home controller and a Fujitsu General indoor unit.
- Compact and lightweight design

Installation example

KNX® converter for VRF

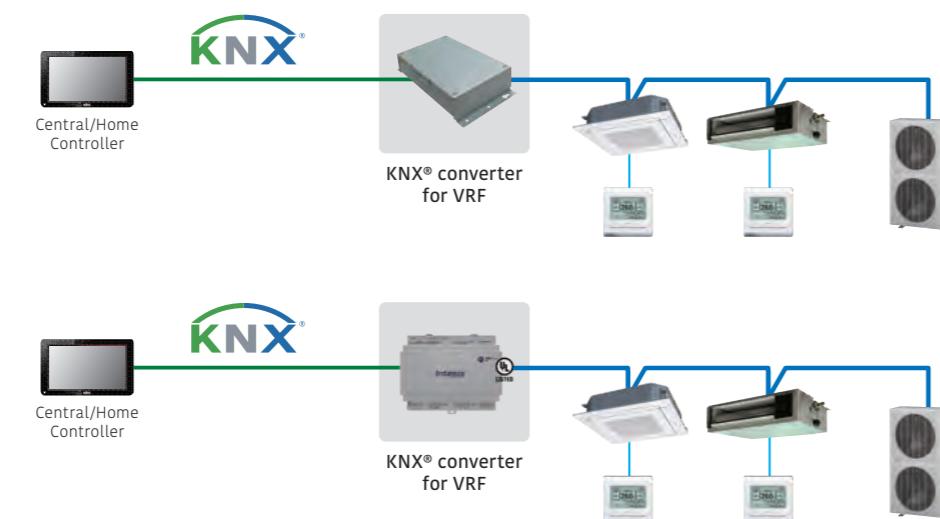

UTY-VKGX / FG-TL-BMKG16Z1

Up to
100 outdoor units
Up to
128 indoor unitsUp to
16 outdoor units
Up to
16 indoor units

KNX® converter enables centralized control of a system.

- KNX® converter connects a central or home controller and a Fujitsu General VRF system.
- Up to 128 indoor units and 100 outdoor units can be connected to a single KNX® converter. (UTY-VKGX)

Installation example

Specifications

Model name	UTY-VKSX	UTY-VKGX	FG-TL-BMKG16Z1
Power supply	12 V DC	Single phase ~220 to 240 V 50/60 Hz	12 to 36 VDC, Max: 250 mA or 24 VAC 50-60 Hz, Max: 127 mA*
Dimensions (H × W × D) (mm)	140 × 117 × 43	54 × 260 × 150	90 × 106 × 58
Weight (g)	215	1,200	375

*24 V DC power supply is recommended.

KNX® interface

FG-RC-KNX1Z1 / FG-AC-KNX1Z1 / FG-IR-KNX1Z1

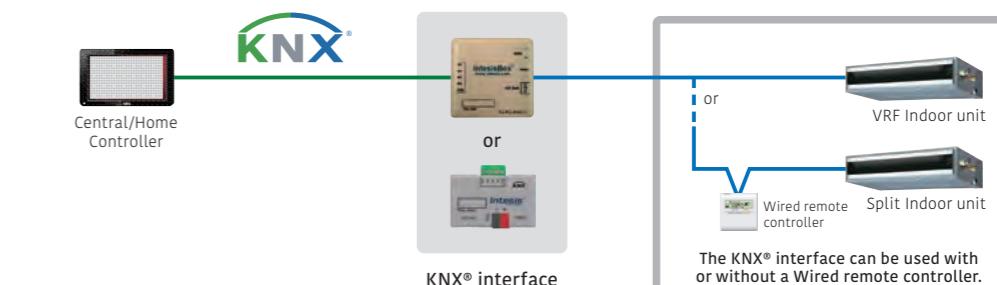

Intesis®
BY HHS NETWORKSFG-RC-KNX1Z1
(3-wire RC-line type)

The KNX® interface enables air conditioners to be fully integrated into a KNX® network system.

- Simple installation due to small and compact size.
- No separate external power supply required (only KNX® bus power required)

Installation example

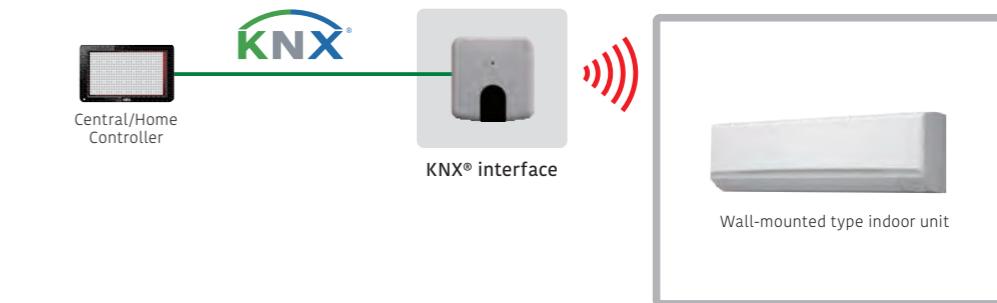

[3-wire RC-line type/CN connector type]

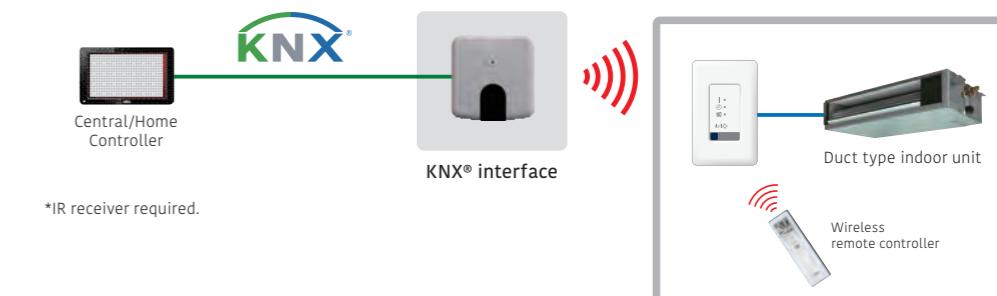

The KNX® interface can be used with or without a Wired remote controller.

Intesis®
BY HHS NETWORKSFG-IR-KNX1Z1
(IR type)Up to
1 indoor unit

[IR type] Connection to wall-mounted type

[IR type] Connection to a product other than wall-mounted type

*IR receiver required.

Specifications

Model name	FG-RC-KNX1Z1 (3-wire RC-line type)	FG-AC-KNX1Z1 (CN connector type)	FG-IR-KNX1Z1 (IR type)
Number of controllable groups	1	1	1
Dimensions (H × W × D) (mm)	70 × 70 × 28	45 × 59 × 21	81 × 78 × 28
Weight (g)	70	35	76

Network converter for single-split type

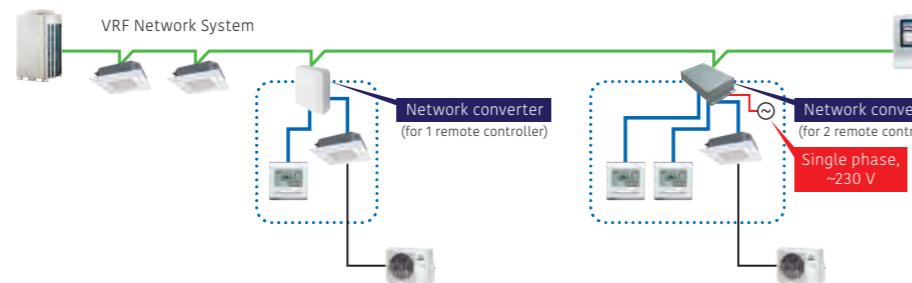

UTY-VTGX / UTY-VTGXV

UTY-VTGX
DC power supply typeUTY-VTGXV
AC power supply typeUp to
16 single indoor unitsUp to
1 groupUp to
100 Network Converters

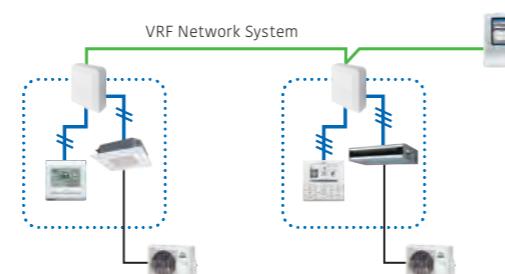

- A network converter is required when connecting a single-split system to a VRF network system.
- Compact and lightweight design
- Connectable to both nonpolar 2-core and polar 3-core remote controllers

Installation example

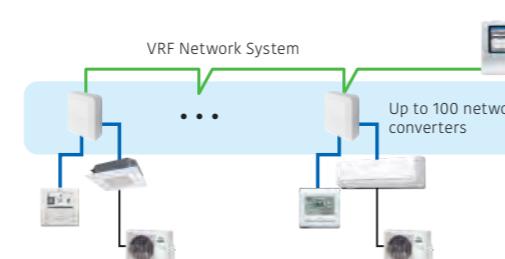

- A 1-remote-controller type and a 2-remote-controller type are available.
- Power supply (220 to 240 V AC, 50/60 Hz) is required for the 2-remote-controllers type.

- Both nonpolar 2-core and polar 3-core type Wired remote controllers can be connected.

- Central control can be provided for single-split systems. (Up to 100 network converters can be connected in a VRF network system)

**Specifications**

Model name	UTY-VTGX		UTY-VTGXV
Power supply	Polar 3-core 12 V DC	Nonpolar 2-core DC 12 V	Single phase ~220 to 240 V 50/60 Hz
Input power (W)	Max. 1.2 W		Max. 3
Dimensions (H × W × D) (mm)	140 × 117 × 43		54 × 260 × 150
Weight (g)	250		1,100

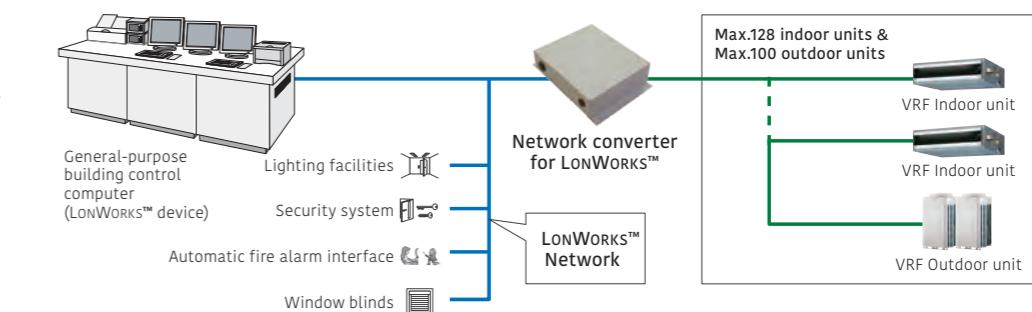

Network converter for LONWORKS™

UTY-VLGX

Up to
4 units to BMS
Up to
100 outdoor units
Up to
128 indoor units

- Connects the VRF network system to a LONWORKS™ open network to manage small and midsized BMS and VRF network system.
- The UTY-VLGX enables centralized monitoring and control of VRF network system from a BMS via a LONWORKS™ interface.
- Up to 128 Indoor units can be connected to one network converter for LONWORKS™

Installation example**Specifications**

Model name	UTY-VLGX
Power supply	Single phase ~208 to 240 V 50/60 Hz
Power consumption (W)	4.5
Dimensions (H × W × D) (mm)	67 × 288 × 211
Weight (g)	1,500

Transmission specifications (BMS side)

Transmission speed	78 kbps
Transceiver	FT-X1 (available from Echelon® Corporation)
Transmission line form	Free topology
Terminal resistor	(converter to be attached at the terminal of a network)

External switch controller

UTY-TERX

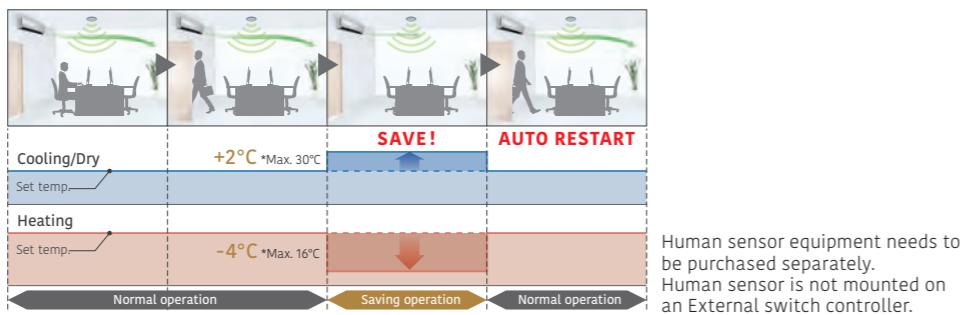

Up to
1 group

Air conditioner switching can be controlled by connecting this external switch controller to other sensor switches.

- In combination with a commercially available card-key switch or other sensors, this External switch controller enables the control of ON/OFF, room temperature, and fan speed of connected air conditioners as well as master control functions. This makes this product an ideal choice for use in hotel rooms.
- Card key or other sensor switches are locally available.
- The set temperature can be specified at two points each for cooling and heating operations (4 points in total).

Installation example

Human sensor monitors the movement of a person in a room. When it detects that the person has left the room, it switches the air conditioner to low-capacity mode. When a person returns to the room, the air conditioner returns to the previous operation mode.

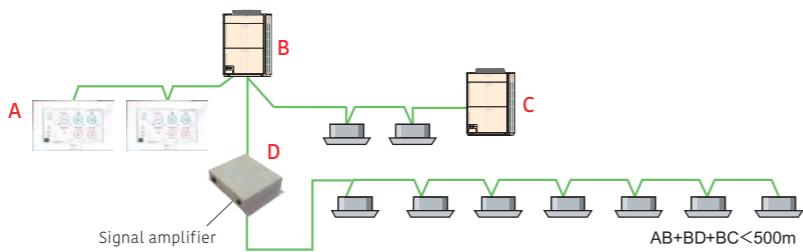

Signal amplifier

UTY-VSGXZ1

- The transmission line can be extended up to 3,600 m using multiple Signal amplifiers.
- Up to 8 Signal amplifiers can be added in a VRF network system.
- A Signal amplifier is required.
 - When the total wiring length of the transmission line exceeds 500 m.
 - When the total number of units on the transmission line exceeds 64.

Installation example

Specifications

Model name	UTY-VSGXZ1	UTY-TERX
Power supply	Single phase ~208 to 240 V 50/60 Hz	6.5 to 16 V DC
Power consumption (W)	4.5	-
Dimensions (H × W × D) (mm)	67 × 288 × 211	140 × 117 × 43
Weight (g)	1,500	250

Optional parts Overview

For Split & Multi-split, VRF

A variety of optional parts are available to enable installation of the selected indoor unit properly according to the environment.

Optional Parts For Cassette

**Human sensor kit**

A built-in thermo sensor monitors and controls room temperature accurately.

**Cassette grille**

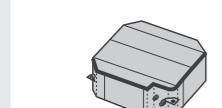

A lineup of cassette grilles that match a variety of interiors. A grid ceiling-type cassette grille has been added to the lineup.

**Silver ion filter**

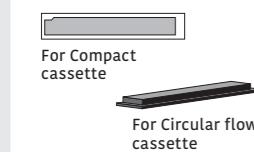

The Silver ion filter helps to keep indoor air free from viruses, bacteria and molds.*

**Fresh air intake kit**

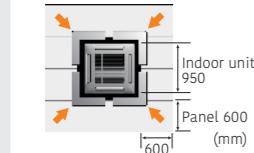

Fresh air can be taken in by a fan connected to an external control unit.

**Insulation kit for high humidity**

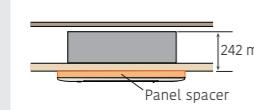

Insulation kit for high humidity is used when the installation location is in a high humidity environment.

**Air outlet shutter plate**

Airflow directions can be changed to 3 directions using the Air outlet shutter plate depending on the installation location.

**Wide Panel**

When a cassette type is installed in a narrow space in the ceiling, the wide panel fills in that space.

**Panel spacer**

If the ceiling space is tight and the main body protrudes from the ceiling surface, a panel spacer can be used as a decorative trim.

Optional Parts For V-IV

**Pressure sensor kit**

When installed, the height difference between the outdoor unit and indoor unit can be allowed up to 110 m.

Optional Parts For R32 VRF products

**Gas Sensor kit**

Used to ensure standards compliance and safety when R32 VRF products are installed.

**Expansion kit**

Connect to indoor units to expand the number of inputs and outputs when using multiple safety devices or external input / output functions.

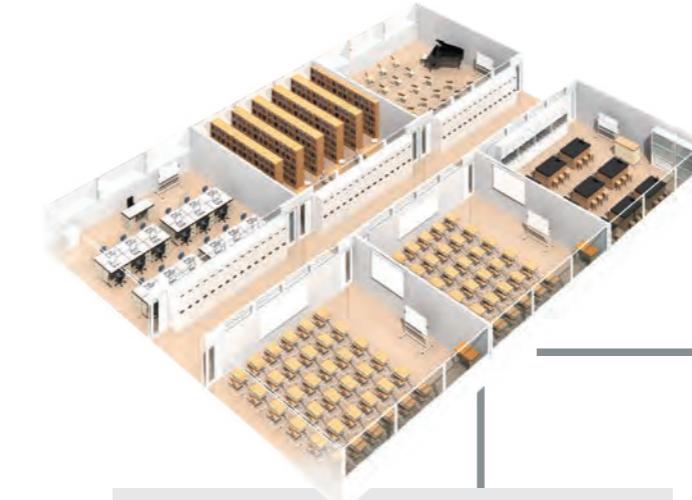

Optional Parts For Floor

**Half concealed kit**

Used to half conceal a floor type indoor unit in the wall.

**Silver ion filter**

The Silver ion filter helps to keep indoor air free from viruses, bacteria and molds.*

Optional Parts For Common

**Remote sensor unit**

Detects the room temperature around the sensor. Used to construct systems that improve comfort. (See the options list for compatible devices.)

Optional Parts For Duct & Ceiling

Auto louver grille kit
The optional clean-looking flat Auto louver grille blends into any interior and provides a comfortable airflow.

Silver ion filter
The Silver ion filter helps to keep indoor air free from viruses, bacteria and molds.*

Long-life filter
Captures grit and dust. Long-life design with consideration of running costs.

Flange
Flanges are used when connecting a medium static pressure duct type and a ceiling type with air intake and exhaust ducts.

Drain pump unit
Drains water that has accumulated during operation.

Connection Parts

Communication kit
Required for a wall-mounted type when the External connect kit set or a Wired remote controller is connected to the indoor unit.

External connect kit & set
Connect the printed circuit board (PCB) to external devices.

Connection Units
Connection units are available to separate the pipes when connecting multiple indoor units in a Multi-split type or VRF system.

External power supply unit
The External power supply unit protects the increment in the system even if the power supply for some of the indoor units is shut down.

External input and output PCB box & bracket
Box and bracket for installing the External input and output PCB.

OPTIONAL PARTS

Silver Ion Filter

UTR-FA16-5 / UTR-FA13-3 / UTR-FA03-5 / UTD-HFAA / UTD-HFRA / UTD-HFTA / UTD-HFTB / UTD-HFTC / UTD-HFNC / UTD-HFN / UTD-HFNA / UTD-HFND / UTD-HFKB / UTD-HFKA

For Wall mounted / Floor
UTR-FA16-5 / UTR-FA13-3
UTR-FA03-5

For Cassette
UTD-HFAA / UTD-HFRA

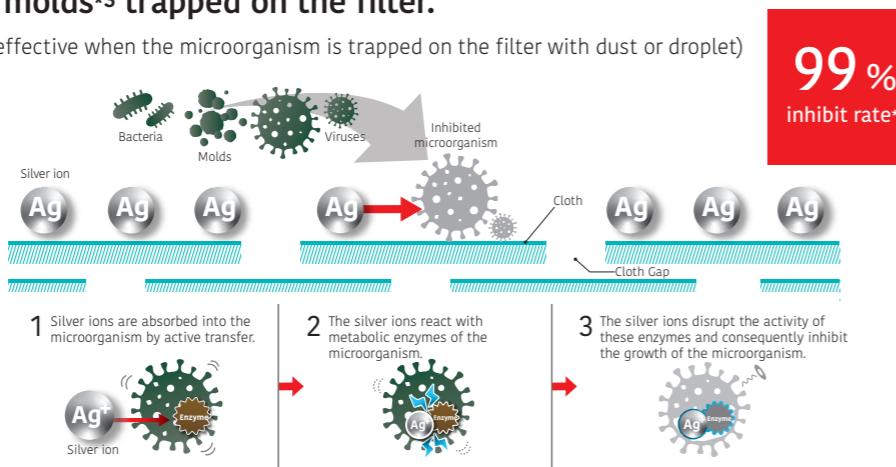

For Duct
UTD-HFTA / UTD-HFTB
UTD-HFTC / UTD-HFNC
UTD-HFN / UTD-HFNA
UTD-HFND / UTD-HFKB
UTD-HFKA

The Silver ion filter helps to keep indoor air free from viruses, bacteria and molds.

(Not a result of experiments in an actual use environment. Silver ion filter inhibits activity or growth of microorganism, but do not prevent infection.)

The silver ion filter inhibits the activities of viruses^{*1}, bacteria^{*2} and molds^{*3} trapped on the filter.

(Only effective when the microorganism is trapped on the filter with dust or droplet)

^{*1} [Testing organization] Kitasato Research Center for Environmental Science [Test Report] No. 2020_0408 [Test virus] Escherichia coli phage Qbeta NBRC 20012 (1 type) [Test Method] Based on the antiviral test method for textile products (JIS L 1922)
[Test results] Inhibited by at least 99% in 24 hours. Not tested to prevent transmission of SARS-CoV-2.

^{*2} [Testing organization] Kitasato Research Center for Environmental Science [Test Report] No. 2020_0409 [Test bacteria] Escherichia coli NBRC 3972 (1 type) [Test Method] Based on the determination of antibacterial activity and efficacy of textile products (JIS L 1902)
[Test results] The growth of the test bacteria was inhibited by 24 hours testing

^{*3} [Testing organization] Kitasato Research Center for Environmental Science [Test Report] No. 2020_0410 [Test fungi] Aspergillus Niger NBRC 105649 and other fungi (3 types) [Test Method] Based on the test for fungus resistance (JIS Z 2911)
[Test results] The growth of the fungus was inhibited by 28 days testing

The filter is easily removable* and hand-washable.

(*Wall mounted and floor models only)

^{*4} Hand-washing or vacuuming by 3 months is recommended. Cleaning frequency varies depending on the environment of use.

Auto louver grille kit

UTD-GXTA-W / UTD-GXTB-W / UTD-GXTC-W

The optional clean-looking flat Auto louver grille kit blends into any interior and provides a comfortable airflow.

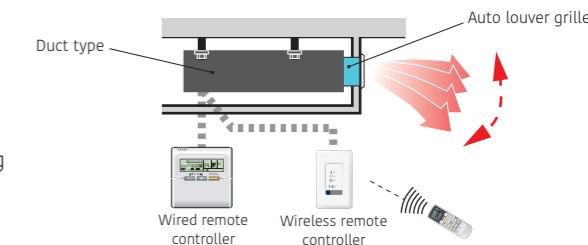

Flexible Control

- The Auto louver grille of the indoor unit can be operated in conjunction with the remote control of the indoor unit.

- Vertical auto swing**
• Auto airflow direction and auto swing
• 4 steps selectable

- Auto-closing louver**
The louvers will automatically close when the indoor unit stops operating.

Pressure sensor kit

UTY-SPWX

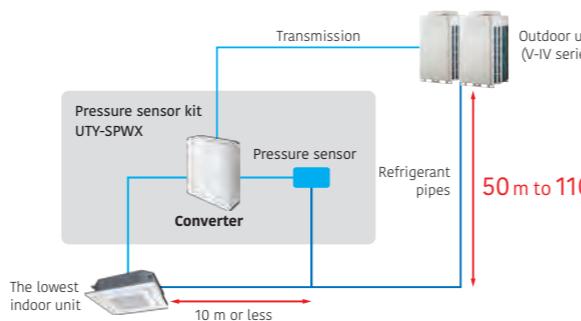

Design flexibility

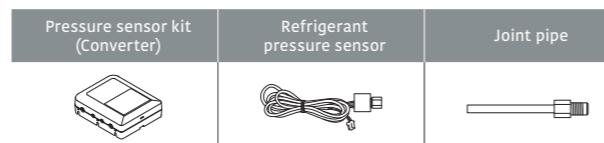

The height difference between the outdoor unit and the indoor unit is normally 50 m for the V-IV series, but can be extended to 110 m by installing the Pressure sensor kit.
(Can only be connected to the V-IV series. Also, it can only be connected to outdoor units using outdoor unit software compatible with the product.)

System overview

Pressure sensor kit

Specifications

Model name	UTY-SPWX
Power supply	9 to 16 V DC
Dimensions (H × W × D) (mm)	140 × 117 × 43
Weight (g)	200

External power supply unit

UTZ-GXXA / UTZ-GXXC

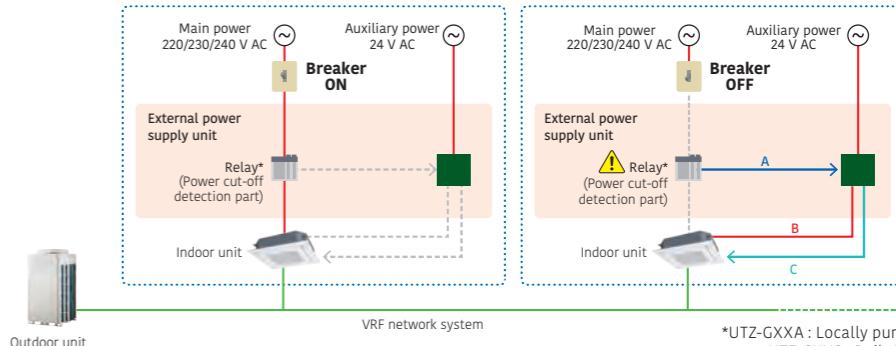

The External power supply unit protects the increment in the system even if the power supply for some of the indoor units is shut down.

Connects to the External power supply unit to supply power to the indoor unit from the auxiliary power supply. This allows for continuous operation without system errors. Built-in relays reduce installation time and cost. The UTZ-GXXC have a built-in relay, which reduces installation time and cost.

High reliability

- A: Interruption of the main power supply is detected by the power cut-off detection part.
- B: Supplies power for driving the expansion valve of the indoor unit. (12 V or 5 V DC)
- C: Gives notification of the power supply from the External power supply unit.

*UTZ-GXXA : Locally purchased
UTZ-GXXC : Built-in relay

Note

- When changing the power supply voltage to 24 V AC, use a power transformer with an insulated structure that complies with the regulations* of the installation region.
- A powered-off indoor unit driven by the External power supply unit is treated in the same way as an operation-off unit in the electricity charge appointment function. If standby power is generated, the result of the electricity charge appointment may not be zero.

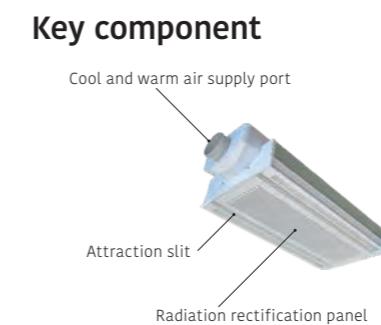

* UL Class II or IEC 61558 Class III, for example.

Specifications

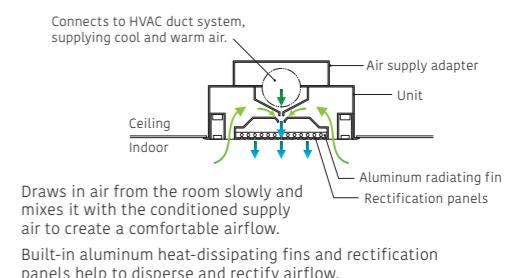

Model name	UTZ-GXXA	UTZ-GXXC
Power supply	24 V AC 50/60 Hz	
Dimensions (H × W × D) (mm)	97 × 200 × 178	
Weight (g)	800	

AIR BEAM Radiation air outlet unit

AIR BEAM For system ceiling (Integrated type)	KS-180	KS-270

Gas sensor kit

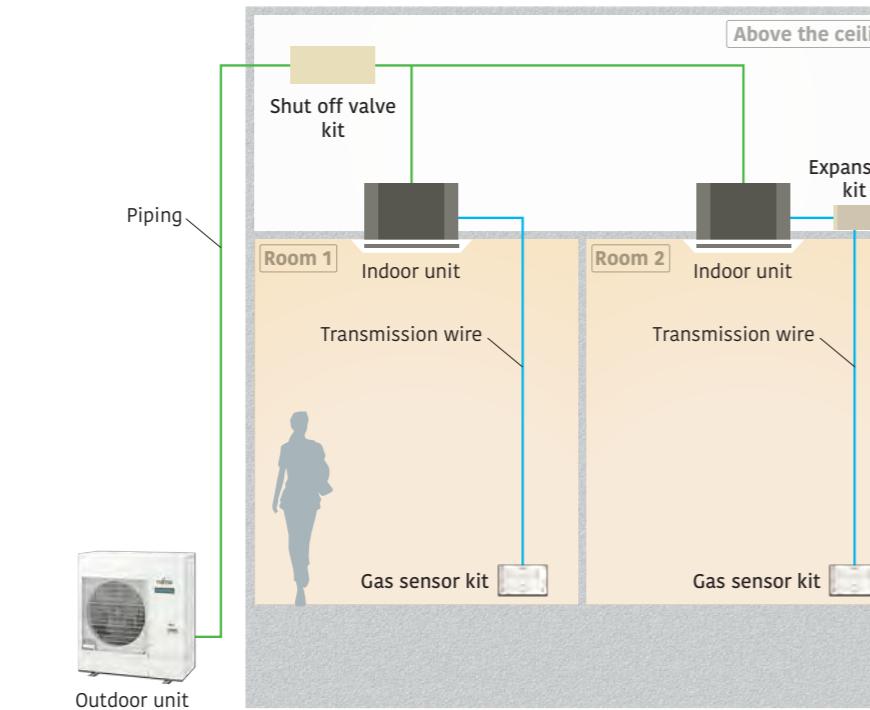

UTY-SGZY

Enhanced safety measures for R32

The system is designed to meet the environmental safety requirements specified in the IEC 603352-40 standard for the use of R32 refrigerant. The environment requiring safety measures is determined by the size of the room in relation to the amount of refrigerant required.

For Example: Total pipe length 120m

Shut off valve kit
UTP-GX027A, UTP-GX060A
Block the path to prevent refrigerant flow in the event of a refrigerant leakage.

Expansion kit
UTZ-JXXA
Used to ensure standards compliance and safety when R32 VRF products are installed.

Gas sensor kit
UTY-SGZY*
Gas Sensor kit Used to ensure standards compliance and safety when R32 VRF products are installed.
*Connection cable (UTY-XWZXZL) is required.

Features: Gas sensor kit

Refrigerant leak detector connection pattern

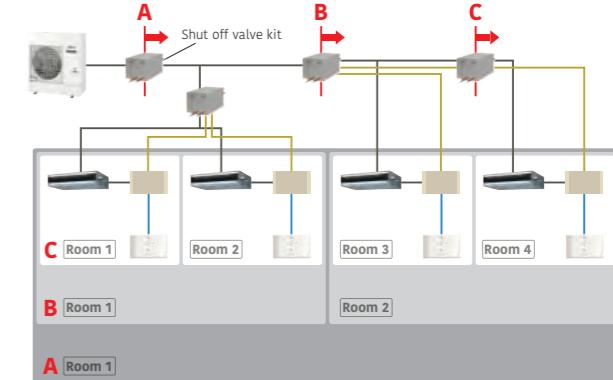

- 1) Corresponds to the case where the classification of air conditioner installation differs from property to property.

Installation position of "Shut off valve kit"

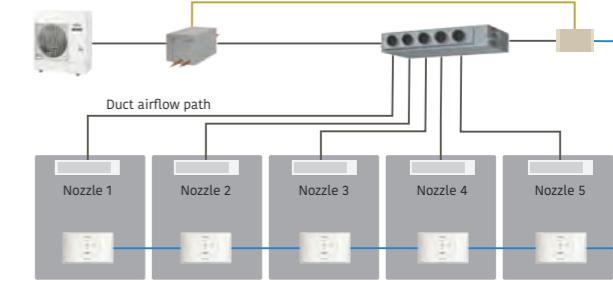

A Indoor unit 1~4 in one room

B Indoor units 1, 2 and 3, 4, if they are set up in two separate rooms.

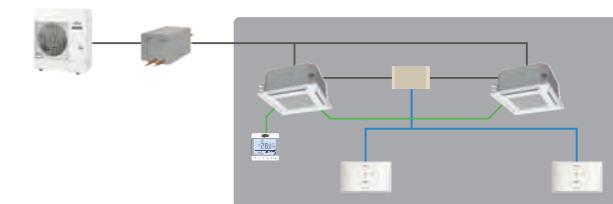

C Indoor units 1~4 are installed in different rooms.

- 2) Multiple rooms or areas are air conditioned using ducted airflow paths

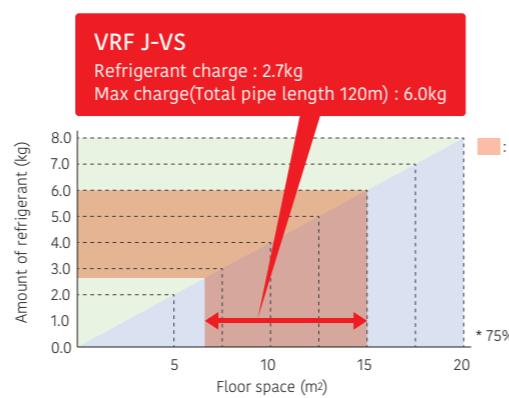

- 3) When operating multiple indoor units with a remote control group

Conditions requiring safety measures

The graph below will help you determine if a safety design is required when installing R32 VRF products. The amount of refrigerant in a refrigerant system determines the floor area, and if the room to be conditioned by the system is less than that area, a "shut off valve kit" and a "gas sensor kit" must be installed.

Specifications

Model name	UTY-SGZY
Dimensions (H × W × D) (mm)	80 × 130 × 35
Weight (g)	500
