

Tacker Clips Welded Double Hook 60mm - OF-0026

Product Description

Tacker clips are specially designed for securing underfloor heating pipes within the insulation layer. Made from high-impact polypropylene, they offer excellent durability and resistance to temperature fluctuations, ensuring they remain strong and reliable during installation with a tacker gun. These clips are thermowelded.

Product Features

- Suitable for manual installation or use with compatible tacker guns
- Securely fixes underfloor heating pipes to insulation boards
- Provides a strong, reliable hold to prevent pipe movement
- Ideal for domestic and commercial underfloor heating projects
- Ensures a quick, efficient, and professional installation
